

Artist: PHIL HANSEN

- * Ignite and innovate your attendees' attitude
- * Rethink what "always worked"
- * Bring creativity to limitations

"I want to share that the feedback has been overwhelmingly positive. Phil's story telling, vulnerability, integration of remote learning and personal devices, plus the interactive filming, was all very well orchestrated and it resonated with everyone."

The Talk: **EMBRACE THE SHAKE**

Audiences will feel inspired by Phil's engaging art and personal journey of overcoming adversity. They will learn a new mental framework to help recognize their own limitations. His program will help them focus on actionable ways to help each other and themselves rather than look for external solutions. Ultimately, they will discover that their limitations can be a source for creativity.

IN PERSON

Beyond his story, Phil will engage your audience in an act of art destruction to show that we need to be flexible with holding onto the past. He will assemble an artwork on stage that shows the power of shifting perspectives. To top it off, he will lead the audience in an art creation experience with the result being a mosaic artwork that is yours to keep!

Fee: 20k In Person

Plus: \$1,500 flat travel; + client is responsible for ground in venue city and hotel. Hawaii, Canada or International - Please Inquire

VIRTUAL

Not Your average virtual presentation! Phil brings you into his art studio through a mixture of amazing images, videos, and multi HD cameras (like a TV production). Phil also creates an interactive presentation by leading the audience through an art creation experience which results in a physical artwork that you get to keep! Whether your virtual conference is on Zoom, other platforms, or professionally hosted, Phil will delight your attendees.

Fee: 10k Virtual

TAKEAWAYS FOR ATTENDEES:

- Discover a fresh perspective on how our constraints can be a catalyst for creativity.
- Identify the obstacles that have the power to limit our success and reimagine them.
- Reduce stress by turning inwards and looking at how our internal resources can solve the challenges ahead.
